eCert

eCertification Platform
(eCert.co.za)

agriculture,
forestry & fisheries

Department:
Agriculture, Forestry and Fisheries
REPUBLIC OF SOUTH AFRICA

Why the eCert Platform?

In partnership with the Department of Agriculture, Land Reform and Rural Development (DALRRD), Fruit SA developed eCert, an online platform for receiving, verifying, processing and delivering certification documentation to trading partners involved with agricultural export products. This means creating systems that enable the export certification process to become paperless (i.e. dematerializing the process) while giving DALRRD greater visibility about product along the supply chain. Overall this is expected to reduce costs of certification, help with resource planning, improve phytosanitary compliance and improve phytosanitary risk management.

Goals & Critical Success Factors (CSF's)

1. Go Paperless
2. Electronic Proof of Compliance
3. Electronic Certification Results
4. Electronic Inspection Results
5. Detect issues earlier with pre-verification processes
6. Increase efficiency throughout the process
7. Increase application processing efficiency through systems
8. Resource management through electronic inspection booking
9. Real-time reports including electronic billing reporting
10. Passing of Phyto Sanitary Data to the IPPC Hub (Export)
11. Pulling of Phytosanitary Data from the IPPC Hub (Import)
12. Provide data to stakeholders for further processing, calculations and forecasting

eCertification Update

- The eCertification platform is up and running!
 - Table Grape phyto's generated off the system now
 - There are some minor teething problems
- ALL phytosanitary certificates for citrus will be issued using the eCertification platform.
 - Be aware of these changes
 - Be informed of these changes

New Phyto Sanitary Certificate

(No more "Green Phyto's" or manual Phyto's)

eCertification Update

- For assistance see:

www.ecert.co.za

- Please read carefully the communication sent out by DALRRD recently.

eCertification Update

- DAFF have dedicated personnel for the project
 - Phindile Ngesi PhindileN@daff.gov.za and Philile Lukhele PhilileL@daff.gov.za
 - Jimmy Weir-Smith (IT) - JimmyWS@daff.gov.za
- Fruit South Africa has appointed additional personnel to run with the project:
 - Sean Hay – General Manager (incl. taken over responsibilities from Paul Hardman)
 - New support staff
 - New developers
- Listen out for notices on training to take place in early 2020

Don't wait, start preparing now
