PPECB

Changes

2019 - 2021

Inspection message submission (Consignment note)

- During the 2019 Season all Inspection messages was still submitted Offline
  - Directly from the Software Vendor System to the Tablet

- As from middle December 2019 the Online functionality became available
  - Inspection messages are posted from the Software Vendor System to the PPECB Server and then the Inspector downloads it from the Server onto the Tablet

- For the coming 2021 Season only the Online functionality will used

PPECB

Export Certification
and Addendums

PPECB Go Live – 22 June 2020

- Software Vendor System readiness is crucial

- TITAN 2.0® Exporter and Freight Forwarder Registration
  - Website: https://titan.ppecb.com/
  - Exporters and Clearing & Forwarding Agents must register with a DALRRD approved FBO code
  - The first User to link this Code to their profile will be the Admin User for the Organisation
  - The Admin User must generate the API credentials in order for the system integration between their Software Vendor and TITAN 2.0®

- What is needed for Electronic Addendum and Export Certificate ?
  - Integrated Software Vendor System
  - Approved Product Inspection data with UPN's
  - Electronic Addendum Submission
