eCert Platform Overview

eCert

- Fruit SA is the service provider to NPPOZA
- eCert Platform
  - Export Controls: (All plant-based certification exports > perishable goods)
    - ePhyto
    - TUM (Tracking Unit Manager)
    - CBR (Central Business Register)
    - eInspect
    - PhytClean Platform (Farm Management & Orchard Compliance)
- Import Controls

agriculture, land reform & rural development
Department:
Agriculture, Land Reform and Rural Development
REPUBLIC OF SOUTH AFRICA

Main Goals - eCert Project

eCert

- Go Paperless
- Electronic Proof of Compliance
- Electronic Certification & Inspection Results
- Pre-Verification Process
- Improve Process Efficiency
- Application Processing through Systems
- Resource Management
- Passing of Phytosanitary Data to the IPPC HUB (Export)
- Monitoring & Evaluation (Traceability, EU and other)

PhytClean Update

eCert

- Citrus Pest Management:
  - The following functionality have been made available for the 2024 season:
    - Fruit Infestation –user can capture the monitoring data and treatment
    - Orchard Management- user can capture packhouse delivery information and update the harvest dates
    - Sanitation GAP –user can confirm that sanitation is taking place at the farm every 4 weeks
    - FFMS Management - user can capture packhouse delivery information
    - CBS management –User can view orchard inspection status and capture ethephon information (symptom expression test)

Changes that have been made:

- Withdrawal for both FCM and CBS has been removed from the system
- There is a new functionality where you will be able to deregister the PUC or orchard for EU
  - Once the orchard or PUC is deregistered it will be removed from the other control points on the system
  - It will also be removed from eInspect

PhytClean Update

eInspect Update

eCert

- eInspect Orchard Inspection: Season 2024 is now available for users to apply for an orchard inspection and for DALRRD inspectors to update the results.
- Can be accessed via https://app.ecert.co.za/
- The booking process for orchard inspection has not changed
- Note: Can only apply for orchards that are due and verified for EU
- Orchard inspection for the 2023 season has been archived under the Archived menu link
- Upcoming Features:
  - Phytosanitary Inspection functionality
    - Currently in testing

TUM Update

eCert

TUM Upcoming

- TUM V3:
  - Mandatory for Citrus 2024 season
  - To improve traceability events throughout the supply chain
  - To ensure that DALRRD can provide compliance with other regulators and trading countries
  - To ensure that DALRRD can identify breakages in the supply chain and easily identify impacted locations or providers
  - Tracking Units are now being renamed as Trade Units.
  - The eLot Notice endpoint is being deprecated and will be replaced by the endpoints for the Creating and Updating Trade Unit Events.
  - The system is being expanded to manage containers as well as trade units
- TUM V3 can be accessed via API or User Interface
  - User guide link: https://qa-api.ecert.co.za/api-docs

ePhyto Update

ePhyto Changes:

- View Applications Dashboard:
  - Cold Treatment View Enhancements (applicable to oranges)
    - The system has been updated to include the following information:
      - Treatment submitted, confirmed date and confirmation age
      - Container Validation History
